OXFORD FINANCE CORPORATION CLOSES \$7 MILLION DEBT FACILITY WITH OTHERA PHARMACEUTICALS

ALEXANDRIA, VA, September 26, 2007 – Oxford Finance Corporation, one of the nation’s leading providers of senior debt to the life science community, today announced it has finalized a \$7 million secured loan agreement with Othera Pharmaceuticals, Inc. The debt facility will be used to support Othera’s goal to become a leading specialty pharmaceutical company focused on novel, patient-administered formulations for ophthalmology, oncology and inflammatory disease.

“This is one of several opportunities we’ve had to provide financing to Othera,” said J. Alden Philbrick, president and chief executive officer of Oxford. “Our business relationship with Othera began with a \$1 million equipment loan in 2004, and we continue to be proud to fuel their innovative small molecule development program.”

“The additional financing provided by Oxford will be applied to ongoing research and development efforts for our ophthalmic lead compound, OT-551, which is currently in Phase 2 studies, and our new development program for OT-304 in thrombosis, oncology and inflammatory disease,” said Philip Heifetz, vice president of finance and business development for Othera. “Oxford has demonstrated a strong commitment to Othera, and we look forward to a long and expanded relationship as our products advance through our pipeline.”
